Erratum: what is the place for sound art?

Tuesday 17 December 2019, 8 pm

ERRATUM is pleased to present *Walkie Talkie Action*, a project tribute to music performer **Boris Policeband** curated by **Sergio Armaroli** and **Steve Piccolo**, which will be held on **Tuesday 17 December at 20.00**.

Boris Policeband was the stage name chosen by **Boris Pearlman** for a few performances and a 7-inch album (title: *Stereo / Mono*, 1979), in which he played electrified violin while listening to police radio and repeating the phrases overheard into a hands-free microphone. His short career seems to have been very carefully shaped to constitute **a very compact and truly legendary package**. Only a few photographs, the short tracks from the album, two or three short and engaging memoirs written by interesting people, a couple of obscure minutes of video from a performance in 1978, not released until 2009 (X Magazine Benefit, COLAB).

During the inauguration evening **Sergio Armaroli** and **Steve Piccolo** will perform a **performance** dedicated to Boris Policeband.
